

## Highway Report

1/21/25

We have spent most of our time maintaining winter roads. All equipment is up and in good shape. We have also been servicing the excavator and chipper.

We have signed the Damage Inventory for FEMA for the July storm. We are working on the FEMA paperwork; it is a process. We have weekly meetings for the storm damage with FEMA.

I would like to thank the men for another safe and productive month.

Richard Meilleur

Highway Superintendent
