Regular Board Meeting
@ The Russell Town Hall @ 6:00pm
5/26/2026

The meeting was called to order at 6:00 pm by Supervisor Matthews.

PUBLIC DISCUSSION:

- Discussed what's been happening at the Russell Public Library. There was a scrabble crawl which included other libraries within St. Lawrence County, they currently have free family passes that you can sign out to visit the Wild Center and a new program called IBirdNY which has challenges to earn patches.
- Discussed if our community was going to oppose the renewable energy solar panels on our State Land & State Parks. We discussed this further in the Legislative Report.
- Discussed road signs like Children at Play due to the racing of vehicles on the Pyrites-Russell Road. They were advised to call law enforcement.
- Discussed ATV and UTV use of our Town Roads.
- Discussed the dumpster at the Town Barn. The overflow was blowing into a nearby yard. The Board apologized and Highway Superintendent Meilleur will contact the garbage company to collect more often.

ACCEPTANCE OF THE MINUTES:

A motion was made by Councilor Rowe Seconded by Councilor Beachard to accept the minutes from 4/21/26 as presented by the Town Clerk.

HIGHWAY SUPERINTENDENT REPORT:

5/26/2026

We have had a busy month. We took down several large roadside trees that were dying or dead. We got about 25 cords of firewood from them. We have also been doing a lot of ditch cleaning and all the dirt roads have been graded and are in pretty good shape for now.

We have been getting parts quotes for the sand screener repairs. It looks like about \$9,000.00 to get it all back into safe working order.

I have a list of paving projects for CHIPS. I had to use what we got last year for a reference as I haven't gotten any information from New York State.

CHIPS projects include:

1. 2.9 miles of hot mix asphalt paving

2. 4 miles of chipseal surface treatment
3. 1 mile of crushed stone (gravel rd)

For a total of 8 miles of road with CHIPS funds.

The total cost is \$485,556.50 out of \$555,673.45 available to cover asphalt costs being a lot higher than spring bid price. We should leave a good rollover amount. We will need a resolution to spend CHIPS funds and sign the spend agreement.

Thank you,
Richard Meilleur
Highway Superintendent

RESOLUTION: # 42 2026 CHIPS Paving Projects in the amount of \$555,673.45.

A motion was made by Councilor Rowe and Seconded by Councilor Beachard to approve 2026 CHIPS Paving Projects 1-10 as presented by the Highway Superintendent at the cost of \$555,673.45 CHIPS amount from State. Therefore, the Town Board agrees to approve the 2026 Projects with what the Highway Superintendent presented.

RESOLUTION NO. 41

IN SUPPORT OF ST. LAWRENCE COUNTY'S RESOLUTION TO OPPOSE SENATE BILL

S.4408

**IN OPPOSITION TO LEGISLATION AUTHORIZING RENEWABLE ENERGY
DEVELOPMENT ON STATE FOREST LANDS WITHOUT LOCAL CONTROL AND
CONSIDERATION OF ECONOMIC IMPACTS**

By Mr. Hull, Chair, Finance Committee

Co-Sponsored by Mr. Sheridan, District 4; Mr. Denesha, District 6; and Mr. Perkins, District 7

WHEREAS, St. Lawrence County contains extensive acreage of New York State reforestation lands that contribute significantly to the County's natural resource economy, tourism industry, and quality of life, and

WHEREAS, these State Forest lands support local economies through timber harvesting, outdoor recreation, hunting, fishing, snowmobiling, and tourism-related businesses, all of which generate revenue and sustain employment for County residents, and

WHEREAS, these lands also provide critical ecosystem services, including carbon sequestration, water quality protection, and wildlife habitat, which have long-term environmental and economic value, and

WHEREAS, the Board of Legislators has consistently supported a balanced approach to economic development that protects natural resources while promoting responsible growth and local job creation, and

WHEREAS, proposed legislation, including Senate Bill S.4408, would authorize renewable energy development on State reforestation lands under the jurisdiction of the New York State Department of Environmental Conservation, and

WHEREAS, such legislation could allow large-scale industrial development, including solar arrays, wind energy facilities, battery storage systems, and transmission infrastructure, on lands currently used for forestry, recreation, and conservation, and

5/26/2026

WHEREAS, the conversion of forest lands to industrial energy use may result in the loss of timber production, reduced tourism activity, and diminished recreational opportunities, thereby negatively impacting local businesses, property values, and tax bases, and

WHEREAS, while State-owned lands are tax-exempt, they provide important indirect economic benefits that could be compromised by large-scale development inconsistent with current land uses, and

WHEREAS, the proposed legislation does not require approval or meaningful participation from county or local governments, thereby undermining the principles of home rule that this Board has consistently defended in prior resolutions, and

WHEREAS, the Board of Legislators has previously expressed support for renewable energy development when it is appropriately sited, economically beneficial to local communities, and implemented with full local input and oversight, and

NOW, THEREFORE, BE IT RESOLVED that the Board of Legislators hereby opposes Senate Bill S.4408 and any similar legislation that would permit renewable energy development on State Forest or reforestation lands without the explicit approval and involvement of local governments, and

BE IT FURTHER RESOLVED that the Board of Legislators calls upon the New York State Legislature and Governor to amend such legislation to ensure:

- 1.) Meaningful local control and home rule authority over land use decisions;
- 2.) Full evaluation of economic impacts on rural communities, including forestry, tourism, and small businesses;
- 3.) Protection of existing recreational uses and public access;
- 4.) Preservation of long-term environmental and economic value of forest lands, and

BE IT FURTHER RESOLVED that the Board of Legislators supports renewable energy development that prioritizes previously disturbed lands, including brownfields, commercial and industrial sites, and rooftops, in order to minimize impacts on working forests and natural landscapes, and

BE IT FURTHER RESOLVED that the Board of Legislators reaffirms its commitment to advocating for policies that respect rural communities, protect local economies, and uphold the principles of local governance, and

BE IT FURTHER RESOLVED that certified copies of this resolution be forwarded to Governor Kathy Hochul, Senator Dan Stec, Senator Mark Walczyk, Assemblyman Ken Blankenbush, Assemblyman Scott Gray, Assemblyman Robert Smullen, and the New York State Department of Environmental Conservation.
