

Highway Report

7/21/2026

We had a couple of storms in the last month, and they took down quite a few trees, especially on the south side of the town. We have gotten most of the trees and debris cleaned up and we should have it all done this week. We will be putting shoulders on hopefully starting Thursday of this week.

Paving on the Lazy River Road is now done. The paving on Pestle Street by the Town Hall is scheduled to be started by the 2nd week of August with Grass River Paving doing that section.

We have submitted 3 more projects to FEMA for reimbursement. They are moving along in the grant process, and we should be getting some more money distributed to us in the coming weeks.

The new boiler should be delivered in the 1st or 2nd week of August.

I would like to thank the men for another safe and productive month.

Thank you,
Richard Meilleur
Highway Superintendent
